## UV-C disinfection mini chamber UVCC090 for professional use

Philips UV-C disinfection mini chamber provides the perfect solution to disinfect the surfaces of small belongings, shared devices or objects touched by numerous people, such as a mouse, keyboard, headsets and remote controls. Simply place items into the mini chamber, set the timer for exposing the items to UV-C light with the recommended disinfection scheme. The UV-C disinfection mini chamber can be placed into many different areas, due to its light weight. With the design and its portable size the UV-C disinfection mini chamber is a unique disinfecting solution to offer additional protection to your customers, guests and employees in multiple areas in hospitality, the office and retail space.

### Benefits

- Delivers 4-log disinfection rate up to 99.99% to ensure high effectiveness<sup>1</sup>.
- Ease of use with touch panel to set time and control the disinfection time: 180 sec/300 sec/600 sec/900sec to disinfect different size objects.
- Modern design, portable size and light weight, which fits easily to the interior of hotel guest rooms, reception areas and office working areas.
- Includes safeguards such as magnetic switch to prevent UVC exposure due to accidental door opening.

### Features

- Designed to disinfect all surfaces of the individual object with UV-C radiation coverage thanks to embedded high reflected metal plate.
- Philips 253.7nm UV-C tube emits no ozone during the operation.
